First I've heard of this request for more WY "energy bullets" for Bob P so we have nothing more than the WY RH brief we sent you (which I see is attached to Howard's email).

I didn't know he was meeting with WY, I thought he was just visiting with SLT in the Region?

Thoughts, no one responding from your shop.

Great thoughts, Joan. As I know you're out Friday, I've cc'd Martin and Derrith on this so they can pull together language they deem appropriate and share with me.

Thanks,
Howard

I think Martha is looking for one page of bullets that will help Bob tailor his remarks to Wyoming—maybe the location and name of the plays and impacts on air and water, such as stream impairments identified by the state DEQ as tied to gas development and any contribution to NAAQS attainment, and maybe our NEPA work on the BLM RMPs in general; it's good info that these RMPs contemplate tens of thousands of new wells on federal lands in Wyoming. On a related note, he should know about our Buffalo RMP EIS rating that went out in a letter today since BLM will be in attendance. These are just my thoughts; there are other good issues.

Martha,

We are looking forward to the visit and I will get on this now – should have something to you tomorrow evening. Meanwhile, I just sent Khanna an email with Agenda and Hot Topics, but

also a WY issues paper (attached here too). Let me know if this will suffice or if you want more.

See you soon!

Mike

Subject: Wyoming energy one-pager

Hi Mike,

I will be staffing Bob on his upcoming trip to R8. I'm very much looking forward to visiting your office and hope we get to meet in person.

To prepare Bob for his Wyoming conference, could you please coordinate with your staff to pull together a one-pager on the 4-5 major current Wyoming energy issues? We would need that one-pager by COB tomorrow. If it's helpful, here's the conference agenda:
http://www.uwyo.edu/ser/_files/docs/conferences/2013/law-agenda-10-22-13.pdf

Also, I will be driving Bob, so no need to coordinate on that score.

Please give me a call if you have any questions. Thanks again,

Martha
